

## Generalization Competency (brief sample)

*Assist a caregiver to generalize a specific skill within his/her child's daily routines*

**Parent/Client Background Information** (include any background info that is relevant for the reader to interpret the competency):

**Specific Targeted Skill(s)** (select 1-2 skills; include information on current acquisition of the skills within session with instructors):

**Daily Routines** (select 2 daily routines e.g., play, chores, hw, bath, morning routine; discuss how the parent may attempt to generalize skills you are working on during session to the client's daily life):

**Routine 1** (one paragraph):

**Routine 2** (one paragraph):

Examples: generalization of phone conversational skills to grandma's weekly calls, generalization of tact training to nightly story time, generalization of organizational skills to morning routine, generalization of categories to clean up routine, generalization of inhibition skills to family games
